SUMMER READING 2019
Entering 7-8
Public Schools of Brookline, Massachusetts
Dear Parents, Guardians, and Students,

Creating a school-wide culture of reading has always been a priority for the teachers, librarians, and literacy specialists in the Brookline Public Schools. In each school that culture is built and nurtured in myriad ways—through the study of literary elements, read-alouds, book talks, literature circles, genre studies, author visits, evening parent/child book events, independent reading projects, participation in Massachusetts Book Awards and summer reading.

Summer is a perfect time to find books to read for pleasure. This list is a starting point to help you select books that match your interests and includes a variety of titles across many genres, levels, and lengths. Students are encouraged to read at least 5 or 6 books. Our goal is to develop readers who not only can read, but who choose to read for enjoyment.

Summer reading is also a great opportunity to hone your reading skills and maintain your fluency. According to a recent report from John Hopkins University’s Center for Summer Learning children who do not read over the summer actually lose ground in reading proficiency. The report concludes that the effect of reading four or five books during the summer is large enough to prevent a decline in reading scores from spring to fall.

In addition to this list, Brookline’s public libraries and bookstores offer a wealth of titles and suggestions to help you find just the right book for your enjoyment.

Explore. Read. Enjoy,
